

HUSH HUSH

Hush hush don't you cry
People will think something's wrong

Hush hush don't be angry
People will think you're not nice

Hush hush don't look hurt
People will think you're weak

Hush hush don't you shout
People will think you're rude

Hush hush don't be sad
People will think you're boring

Hush hush don't laugh too loud
People will think you're crazy

Hush hush don't you talk
People will learn the truth

Show the world that you belong
By pretending you are strong
It doesn't matter how it hurts inside
That is something you must hide

Now hold your head way up high
And never let out a sigh
As long as you smile and act polite
Everything will be all right
