

Self Help Entrepreneurship

SELF HELP &
PEER SUPPORT

What are Self Help & Peer Support services?

Self Help & Peer Support services are offered by people and for people who have experienced a mental health and/or addiction issue. Our vision is hope and support for recovery through the shared lived experience. *We believe recovery is possible!*

Self Help and Entrepreneurship

Self Help entrepreneurship services are for those experiencing a mental health and/or addiction issue and are interested in self-employment or starting their own business. Using a self help approach, all aspects of business planning can be explored, including:

- Market Research
- Legal Considerations
- Required Skills for Certification
- Pricing Strategies
- Promoting and Advertising
- Financial Considerations
- Networking and Business Ethics
- Business Registration and Taxes
- Business Start-up

A self-help approach means the person supported is actively involved with every aspect of developing their business, including all decision making. Success is determined by the individual: working at the individual's pace.

Participants will ideally develop a business strategy or plan to guide their self employment activities.
